

**performance on sex education by students  
Kobwin Primary School**

**Hadefo** has found administration office Woldendorp from Bedum willing to prepare the annual accounts free of charge. Since January 1, 2009, Hadefo is an ANBI. An agreement with Hadefo in which you record your annual donation for five years, has tax advantages.

Marijke van den Engel takes care of the English translation of the Newsletter.

**Hadefo** has raised **2,843 euro** to distribute the promised sheep to our group in Angod A. For the restart of the "Dignity for Girls" project, another **25,000 euro** are needed. In 2026, HADEO hopes to plant native trees in collaboration with the National Environment Management Authority.

We thank everyone who has supported us in the past period.

**Newsletter 35  
(December 2025)**

**Irene checks the amount of the loan with the treasurer**

The NGO HADEO (Hope Again Development Organization) from Uganda is supported by HADEFO (Hope Again Development Foundation). **Our common goal is: To fight poverty through education, loans and projects for adults in Soroti and Ngora district, located in Eastern Uganda.**

**meeting on sex education in Akubui**

### **Sexual Awareness Project**

Fiona and Flavia are the driving force behind this project. They guide and visit the schools and villages that participate. Through drama and discussions, sex education is given to villagers, students, parents and teachers. Visitors sometimes have to be persuaded because of the subject. The schools are taking a constructive approach and have created a set-up in which students can tell their story in confidence. Due to the exam period in October and November, Fiona and Flavia will pick up the thread again in February 2026, after the school holidays.

### **Rehabilitation and empowerment for pregnant and young teenage mothers**

Hadefo has received a commitment from the former Museum Technical Works for financial support for this new project. Young girls leave school because of pregnancy. With this project, we want to offer them a future again and let them return to school. This is a nice addition to the project that is still ongoing. During Covid19, when schools were closed for almost two years, the number of teenage pregnancies increased enormously. The government and schools are now more aware of this problem.

### **Dignity for Girls project**

Unfortunately, the collaboration with GlobalGiving from the United States has come to nothing. The plan now is to focus on training girls at the 10 schools that HADEO works with, to make reusable sanitary pads. The total budget is 30,000 euro, of which we have now acquired 5,000 euro.

**November 2025 loans for the Atiiri Makole group**

### **The Farmers' Credit Bank (SorotiFALSACCO)**

Hadeo has had a temporary stop in the issuance of loans this year. During that time, volunteer Stanley and our employee Irene visited groups and motivated and supported members to repay their loans. A necessary activity in the future as well. At the beginning of November, loans were issued again. Mukura's Community Development Officer explained good financial management to the members.

### **Sheeps for Angod A**

On November 22, a sunny but cold day, Ilse, board member Astrid and Willemijn, participated in the half marathon of Uithuizermeeden. This has yielded 26 sheep of 50 euro each. The appeal to loyal donors raised 30.5 sheep. Hadefo will supplement the remaining amount for veterinary costs, transport and training. Early next year, we want to delight the members of Angod A with the promised sheep. The three runners and all generous donors are thanked very much.
